

THE 'RACE HATRED' SMEAR

Red teachers will try to tell you that to oppose multi-racialism and to wish to preserve your own race is to promote 'race hatred'. This is a lie, and you should not promote hatred of other races yourself.

You should simply point out that races are different and that because of these differences segregation is as much in the interests of the coloured races as of our own. In fact a White who is proud of his race and wants to be a parent of children of the same race should respect a non-White with the same attitude. The enemies of our race are not the non-Whites; they are the multi-racialists, like your red teacher.

LIES ABOUT BRITISH HISTORY

The British are a great people with a great past, and the British Empire was their greatest achievement. Communist teachers will tell you that we British 'exploited' coloured people in our Empire and deprived them of their freedom, resulting in their poverty.

Tell your red teacher that everywhere that the British ruled coloured races in the Empire they improved their standards of living, brought order and justice and created opportunities for work that otherwise would not have existed. Since our ex-colonies have had their 'freedom' they have been much poorer, relatively, than under British rule.

GAY-LIB PROPAGANDA

Some red teachers are now introducing lessons into the curriculum aimed at teaching pupils that to be homosexual is perfectly normal and that no-one should be afraid of it. In some schools there are even lessons which encourage youngsters in homosexual experimentation.

Tell your teacher, if he or she tries this on, that homosexuality is a vile and degrading practice and entirely against the laws of nature - furthermore that today it helps the spread of the deadly disease of AIDS. Young people should shun homosexuality like the plague and aspire to grow up to be real men and real women with real children.

ATTACKS ON PATRIOTISM

Lenin said that it was necessary to kill the patriotism of the young in order that communism might triumph. That is why communists tell you that we should abolish nations, that patriotism 'causes wars' and is 'out of date'. They will tell you that mankind would be best off under a 'world government'.

Ask the red teachers why they then support black nationalism (but not White Nationalism). Tell them that there have been far more civil and religious wars than wars arising out of national conflicts. In modern times, more wars have been caused by communists than by anyone else. Tell your teacher that a 'world government' would be a tyranny just like Orwell's Nineteen-Eighty-Four.

The British People's Party Viking Youth says:

KEEP RED BRAINWASHING OUT OF OUR SCHOOLS!

If you want to help us distribute this leaflet, contact us for information and we'll make sure you get a supply to hand out around your school. If you want to become a member of the Viking Youth, get in touch with us now!
